ABOUT ME

João likes technologies since he was a child, he always has been fascinated about everything that relates that specific area. He loves to play computer and search about the most diverse topics, a true curious. Recently, about two years ago he found out a passion for programming and logic. Since then he has been dedicated to study programming. Now as a student of Specialist technical in technologies and programming he is ready to new challenges and practice his knowledge in the area, he is excited to learn, grow professionally and exchange experiences.
